WuXi AppTec

WE ARE DETERMINED TO SERVE YOU BETTER®

Established in December 2000, WuXi AppTec is a leading global pharmaceutical, biopharmaceutical and medical device outsourcing company with operations in China and the United States. As a research-driven and customer-focused company, WuXi AppTec provides a broad and integrated portfolio of laboratory and manufacturing services across the discovery-to-commercialization spectrum. Our services are designed to assist our customers worldwide in shortening the time and lowering the cost of drug and medical device R&D by providing cost-effective and efficient outsourcing solutions.

Facilities

WuXi AppTec's primary China-based facilities include a 680,000-square-foot R&D center, a cGMP-quality 570,000-square-foot process development/manufacturing plant, and a 22,000-square-foot formulation pilot plant in Shanghai; a 130,000-square-foot R&D center in Tianjin; and a 323,450-square-foot toxicology center in Suzhou.

Our U.S.-based facilities are all FDA-registered, including a 83,000-square-foot R&D and manufacturing facility in St. Paul, Minnesota; a 50,000-square-foot testing facility in Atlanta, Georgia; and a 75,000-square-foot R&D, testing and manufacturing facility in Philadelphia, Pennsylvania.

Staffing

Our senior management team consists of Ph.D.s and MBAs with experience in drug and medical device R&D and international business. Collectively, our senior management has more than 200 patents pending or granted, has published more than 800 scientific papers, and has an average of 15 years' experience working in major international pharmaceutical, biotechnology and medical device companies. The company's total number of employees is over 3,800.

Services

Laboratory Discovery

- Synthetic and Medicinal Chemistry
- Discovery Biology
- Service Biology
- Bioanalytical
- Analytical Service

Drug Development and Manufacturing

- Process Development
- Process Scale Up
- cGMP Manufacturing of Advanced Intermediates and API
- Preformulation and Analytical Development Services
- Pharmaceutical and Formulation Development
- cGMP Manufacturing of Drug Products

Toxicology

- Mice, Rats, Guinea Pigs, Rabbits, Pigs, Dogs, and Monkeys
- Clinical Pathology
- Toxicokinetics Analysis
- Immunogenicity and Immunophenotyping
- Histopathology Services
- Local Tolerance
- Acute Toxicity
- Repeat Exposure
- Carcinogenicity
- Immunotoxicity
- Biodistribution

Biologics Testing and Manufacturing

- Technology Transfer
- Product Characterization
- Cell Line Engineering and Construction
- Cell Line Characterization
- GMP Cell Banking
- Cellular Therapeutics Manufacturing
- Lot Release and Raw Materials Testing
- Viral Clearance Validation
- Stability Studies
- Assay Development / Custom Assays

Medical Device Testing and Manufacturing

- Biocompatibility Testing (*in vivo* and *in vitro*)
- Custom Device and Materials Testing
- Combination Products Testing
- Lot Release and Raw Materials Testing
- Sterilization Validation
- Chemistry Testing
- Microbiology Testing
- Package Testing
- Controlled Environment Testing
- Contract Manufacturing for Device, Combination and Tissue Products
